

I am very upset to hear that one of my favorite stations (K-Love) might be knocked off the air by an LPFM. I love this station and the fact that it is not local has no bearing on my listening to it. I believe this station is a benefit to the public interest, it broadcasts a positive message that we need to hear. If it were displaced, there would be a huge gap. We don't need another talk station, or country, oldies or rock. We need K-LOVE!
